- MULTI-ASSET
- BALANCED-RISK COMMODITIES

### MITIGATING

- CURRENCY MANAGEMENT
- INFLATION PROTECTION

Established in 1988, First Quadrant specializes in systematic alternative approaches to global macro investing.

Our investment edge lies in a deep understanding of market influencers, how their objectives vary in different market environments, and the impact of those objectives on asset prices. The firm provides investment management services to institutional clients around the globe, including corporate and public plans, endowments/foundations, high net worth/family offices and sub-advised relationships. First Quadrant offers investment solutions aimed at diversifying returns, enhancing returns, and mitigating risks across a range of separate accounts and fund vehicles.

## PHILOSOPHY

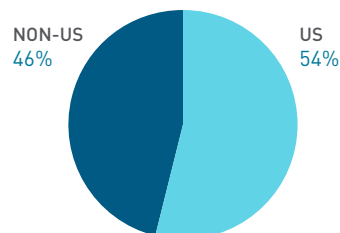

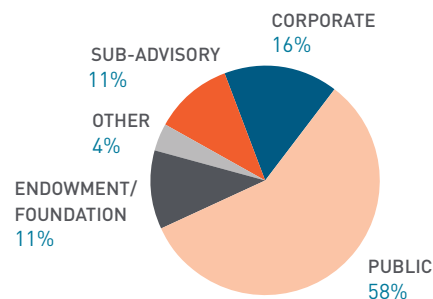

First Quadrant believes asset prices are anchored in fundamentals, but can swing widely around that anchor based on market influencers' rationale and time-varying objectives. We apply our insights into market influencers and the market environment to anticipate asset movements and position our portfolios accordingly.

FQ adheres to three investment principles:

- Build Breadth
- Respond Tactically
- Innovate Relentlessly

## TYPES OF CLIENTS<sup>2</sup>
