- TAIL-RISK HEDGING
- INFLATION PROTECTION

First Quadrant is an innovative investment management firm specializing in alternative approaches to global investing.

Employing a highly disciplined, risk-controlled approach designed to deliver consistent, long-term results, the firm adds value by combining a rigorous analysis of macroeconomic fundamentals with a thorough understanding of the dynamics that drive shifts in investor preferences for assets. The firm provides investment management services to institutional investors around the globe and manages a range of separate accounts, commingled funds, and UCITS funds. First Quadrant offers solutions aimed at diversifying returns, return enhancement and risk mitigation in several broad areas to help meet client needs.

PHILOSOPHY

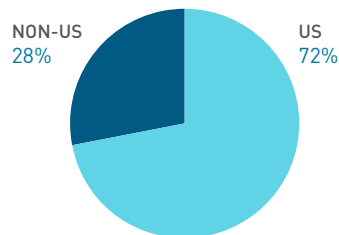

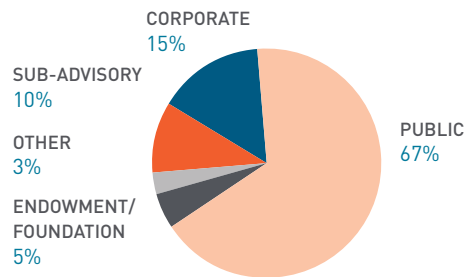

We believe our edge derives from a focus on macro phenomena, the drivers of return and the careful examination of risk – in a way that few do.

FQ adheres to three investment principles:

- Build Breadth
- Respond Tactically
- Innovate Relentlessly

TYPES OF CLIENTS²

As a % of Total Assets Only

Diverse Professional Backgrounds

Asset information as of March 31, 2018. Past performance is no guarantee of future results. Potential for profit is accompanied by possibility of loss. ¹Includes market values for fully funded portfolios and the notional values for margin funded portfolios, including both active mandates and those with both active and passive components, all managed by First Quadrant and non-discretionary portfolios managed by strategic partners using First Quadrant, L.P. investment signals. First Quadrant is defined in this context as the combination of all discretionary portfolios of First Quadrant, L.P. and its strategic partners, but only wherein FQ has full investment discretion over the portfolios. ²As a percentage of total assets. Other includes Union/Multi-employer, HNW/Family Office and Strategic partners.
